

NEWS RELEASE

“For Immediate Distribution”

Mineral Wells, TX May 20, 2009.

KBK Innovations, Inc 103 S. Oak Ave Suite #110 Mineral Wells, TX 76067

KBK Innovations of Mineral Wells, TX announced today they have been awarded a Government Services Administration (GSA) contract for AIMSonScene™ Software. The contract number is **GS-35F-0454V** under the IT-70 Section.

Ben Meche’ says, “We are thrilled to have accomplished this achievement and would like to thank all those people who supported this effort. Along with our HUBZone status and qualification, having been awarded a GSA contract will certainly help many agencies purchase AIMSonScene™ Software and with less paperwork and effort” “Not to forget that the GSA pricing level, an end user will pay the negotiated discount rate and will save valuable budget dollars.”

“Our contract includes the Single User, Peer-to-Peer, Multi User Multi Incident and the Multi User Single Incident Server Licenses as well as some of the Multi User bundle packages sought after by many agencies.” “We were also able to include all of the Software Support Software Subscriptions (SSSE) associated with the software licenses, and the training options on this contract.”

KBK said it will take a few days to get the price list uploaded and posted to their website, and other locations required for it to be posted and available for viewing. In the meantime, if you are interested in purchasing AIMSonScene™ products under the GSA contract, or need any additional information, please call or email Ben Meche’ for a pricelist or further details. Call 940-325-4777, bmeche@uwmil.com, or visit their website at www.kbkonline.com / www.kbki.net.
